WORK EXPERIENCE

Web development, Intern   **Integration IT services**   **Summer 2018**

- I made some small projects in this internship using PHP and MYSQL.

EDUCATION

Bhopal, MP   **University Institute of Technology**   **2016 – 2020**
- B.E. Information Technology
- Undergraduate Coursework: Data Structure, Algorithms, Programming Languages, Operating Systems, Computer Architecture; Computer Networks

PERSONAL PROJECTS

- **Forum: -**   This project I made for practice during learning Flask. In this forum user can create threads and other   users can comment on that and any user can edit or delete his own comment.

- **2-D Game: -**   In this project I made simple 2-D game using JavaScript .I made this game just to know how games are built.

- **Online IDE: -**   it is online ide that run on browser. It can supports all modern programming language.

- **HTML Code Playground: -**   In this Web app we have three section for html, css and js respectively. User can write their code in all three section using language assigned for that section and output of all three section will be displayed combined.

- **Resume Builder: -** This webApp is made using JavaScript event handling. It can be used for making standard resume.

- **Memes Generator:** - This single page web application is made using React.
